

Screenshots

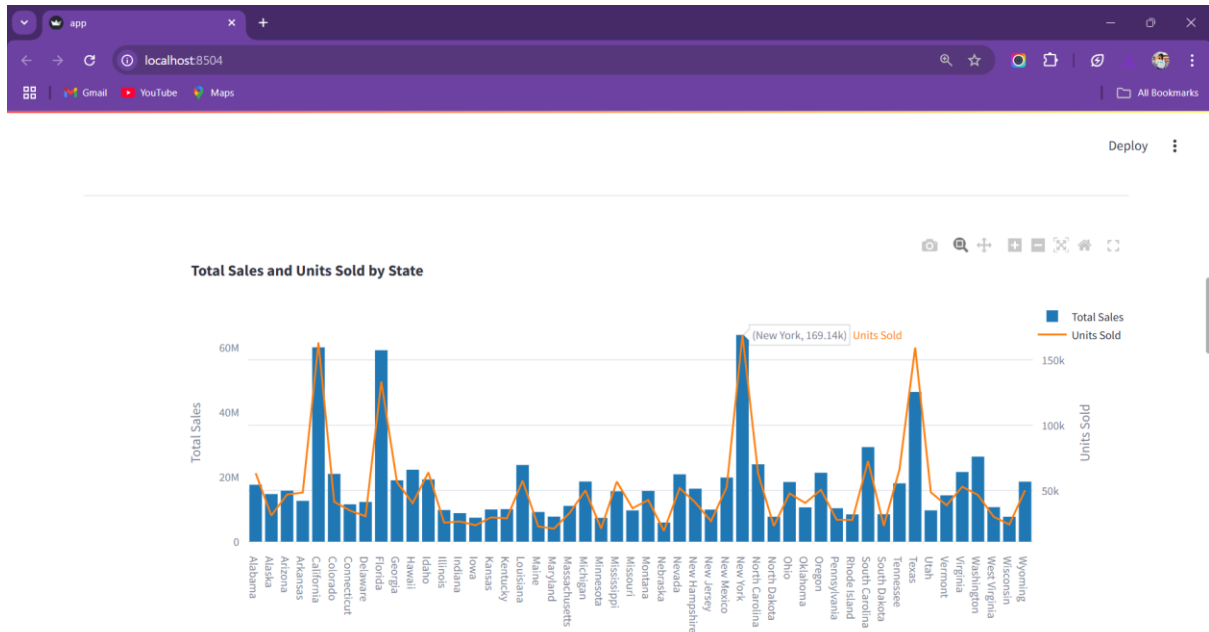

1) **Bar Chart (Total Sales by Retailer)**: Displays the total sales generated by each retailer.

2) **Line Chart (Total Sales Over Time)**: Visualizes sales trends over months/years.

3) **The bar chart and line chart:** They together provide a comprehensive view of sales trends and units sold across different states, highlighting both the overall sales volume and the sales performance over time.

4) **Interactive Buttons:** When users pause over certain buttons, like the download icon, an informative message that explains the button's purpose (such as "Download as CSV") appears.
